Strategic projects of the length laboratory of Central Office of Measures

Authors Dariusz Czulek - Central Office of Measures (Główny Urząd Miar)

[dimensional standards](#) [force microscopes](#) [length laboratory](#)

Abstract

Two strategic projects realized in the Length Laboratory was discussed: "Participation in the project of using MEMS to provide dimensional standards for users of atomic force microscopes" and "Participation in the project of developing a Polish compact laser length / frequency standard – a part of the interferometer for industrial purposes".
