Measurement uncertainty training in the European Metrology Network MATHMET

Authors Paweł Fotowicz, Jacek Puchalski Central Office of Measures (Główny Urząd Miar)

[coverage factor](#) [measurement uncertainty training](#)

Abstract

A multimedia presentation on the measurement uncertainty, prepared as part of the project implemented in the European Metrological Network MATHMET, was presented. In a simple way, it presents the methods of determining the coverage factor given in calibration certificates. It will complement training materials related to measurement uncertainty.
